Travel Expense Policy 2025

SYNTHETIC TRAINING DOCUMENT

document_id: FIN-002
title: Travel Expense Policy 2025
department: FIN
version: 1.0
effective_date: 2025-01-01
status: Superseded
region: US
access_level: All Employees
owner: FIN Operations
related_document_ids: ['LEGAL-004']
synthetic: True

Scope

This policy applies to US NovaTech staff and authorized stakeholders. Travel Expense Policy 2025 is maintained by FIN Operations.

Policy requirement

SUPERSEDED: former US meal per diem $75/day and hotel cap $190; expired December 31 2025.

Implementation steps

1. Log the request, business purpose, owner, and applicable region. 2. Verify the current policy version and eligibility. 3. Obtain the designated approval before execution. 4. Record the outcome and evidence in the department tracking system. 5. Escalate exceptions to FIN Operations.

Worked example

A staff member asks about travel expense policy 2025. The reviewer checks the rule above, validates employee scope, records approvals, and follows the related procedure in LEGAL-004. Do not use superseded guidance for current requests.

Controls and exceptions

Exceptions need written approval from FIN Operations. Confidential or Restricted material must only be retrieved for entitled roles. The owning team reviews the policy annually.

Cross-department handoff

For overlapping questions, consult LEGAL-004. If policies disagree, use the active version effective on the relevant date and escalate unresolved conflicts to the owners.
