Vendor Payments

SYNTHETIC TRAINING DOCUMENT

document_id: FIN-006
title: Vendor Payments
department: FIN
version: 2.0
effective_date: 2026-01-01
status: Active
region: US
access_level: All Employees
owner: FIN Operations
related_document_ids: ['LEGAL-004']
synthetic: True

Scope

This policy applies to US NovaTech staff and authorized stakeholders. Vendor Payments is maintained by FIN Operations.

Policy requirement

Approved invoices paid net 30; vendors must clear Legal and Security onboarding.

Implementation steps

1. Log the request, business purpose, owner, and applicable region. 2. Verify the current policy version and eligibility. 3. Obtain the designated approval before execution. 4. Record the outcome and evidence in the department tracking system. 5. Escalate exceptions to FIN Operations.

Worked example

A staff member asks about vendor payments. The reviewer checks the rule above, validates employee scope, records approvals, and follows the related procedure in LEGAL-004. Do not use superseded guidance for current requests.

Controls and exceptions

Exceptions need written approval from FIN Operations. Confidential or Restricted material must only be retrieved for entitled roles. The owning team reviews the policy annually.

Cross-department handoff

For overlapping questions, consult LEGAL-004. If policies disagree, use the active version effective on the relevant date and escalate unresolved conflicts to the owners.
