Asset Return

SYNTHETIC TRAINING DOCUMENT

document_id: OPS-005
title: Asset Return
department: OPS
version: 2.0
effective_date: 2026-01-01
status: Active
region: Global
access_level: All Employees
owner: OPS Operations
related_document_ids: ['HR-007']
synthetic: True

Scope

This policy applies to Global NovaTech staff and authorized stakeholders. Asset Return is maintained by OPS Operations.

Policy requirement

Return laptop, badge and peripherals by last day; IT disables accounts at separation.

Implementation steps

1. Log the request, business purpose, owner, and applicable region. 2. Verify the current policy version and eligibility. 3. Obtain the designated approval before execution. 4. Record the outcome and evidence in the department tracking system. 5. Escalate exceptions to OPS Operations.

Worked example

A staff member asks about asset return. The reviewer checks the rule above, validates employee scope, records approvals, and follows the related procedure in HR-007. Do not use superseded guidance for current requests.

Controls and exceptions

Exceptions need written approval from OPS Operations. Confidential or Restricted material must only be retrieved for entitled roles. The owning team reviews the policy annually.

Cross-department handoff

For overlapping questions, consult HR-007. If policies disagree, use the active version effective on the relevant date and escalate unresolved conflicts to the owners.
